Social Justice (Samaji N'yaya)

In Islam a woman is known to be your mother, sister, wife and your daughter. She is never known to be your girlfriend. PS. Same goes for "boyfriends" [source: unknown]

Memon Language Series - "Panji Mithi

Boli Memoni" Eating at a table with chairs was not common, nor was eating in plates with cutlery. A 'sadhri' (mat) would be laid down on the floor and a huge "thalo" (very big round tray) was placed in the middle on a "chakar" (a raised platform). The family would gather around the "thalo" and the food was placed in the centre. A young member of the family would go around pouring water to help wash the hands.
